56 Shepard Street; Suite 1  
Walton, New York 13856***

***Welcome to Serenity Counseling***

I appreciate you taking a moment out to read this. I wanted to thank-you for choosing Serenity Counseling to provide for your counseling needs as well as assist you in working towards and attaining your personal goals. I appreciate and acknowledge the courage it takes to want to make a change, and I am delighted, honored and privileged to be working with you through this journey.

I see my clients as people wanting to identify, and work towards learning healthier coping skills to better handle life, especially when that life is complicated by mental health and/or substance use disorders (either their own or a person close to them).

An investment in yourself is never wasted. You and everyone you love benefits!

Often my clients want to share with others about their progress and success. You will have the most success by completing the goals you came to achieve. I welcome you to share your progress with others. Please know that should you choose to refer a potential client to work with me that both of your information is confidential and protected under HIPAA guidelines. I will never share information with others without your specific written consent.

I look forward to getting started with you at your first appointment. Should you have any questions prior to our appointment please feel free to give me a call.

Thank-you,

Nicole Gerace, LCSW,CASAC-G, SAP
